Subject: Photography at School Events – Important Information

Dear Parents and Carers,

We are looking forward to welcoming you to our upcoming school event, which is open to the public.

As this is a public event, we would like to clarify that GDPR consent from the school is not required for photography taken by attendees. In these circumstances, the school does not have control over who may take photographs or how images are used once they are captured.

That said, we recognise that some families prefer that their child is not photographed or that their image is not shared on social media. We kindly ask all parents and visitors to be respectful and considerate of this.

If you do take photographs or videos, please:

- Focus only on your own child wherever possible
- Avoid capturing other children in the background
- Refrain from sharing images of other children on social media

Your cooperation helps us to create a safe and respectful environment for all members of our school community.

If a school member of staff is taking photographs, then we will seek consent (or use another lawful basis) in order to use those photographs.

Thank you for your understanding and support.

Yours Sincerely

Lawrence Woodward
